About Us

Ami Fine Chem is a manufacturing company that specializes in the production of various chemicals and solvents. The company was established in 1997 and has since become a leader in the industry.

Our main mission is to provide the highest standard of products and services to both retailers and customers. The company's product range includes a wide variety of chemicals such as THF, acetonitrile, DMF, toluene, n-heptane, cyclohexane, isopropyl alcohol (IPA), n-butanol, acetone, thinners, xylene, and more. These chemicals are used in industries such as ink, packaging and printing, textiles, paint, adhesives, and others.

Ami Fine Chem's manufacturing plant is located in the chemical zone of Sachin GIDC, Surat. The strategic location near NH 8, a fast-developing industrial area, provides convenient transportation of materials and easy access for visitors.

The company's Greenfield distillation plant is designed for high production efficiency, allowing them to deliver products of the required quality with the desired yield on time and at competitive costs. Ami Fine Chem also offers contract manufacturing services to various industries, including pharmaceuticals, refineries, fertilizers, amino acids, paints, and specialty chemicals. The company has established raw material purchase contracts with leading pharmaceutical companies in Gujarat, Maharashtra, and South India to ensure a regular supply of materials.
